Feature Brain Dump

Get it out of your head. Then decide what earns a place in version one.

PART 1 | SCOPE

Project: _____

NOW = needed for the main task. LATER = useful after the basics work.
PROBABLY NEVER = sounds fun, solves very little. Be honest.

Feature / idea	Problem it solves	Now / Later / Never

My three priorities for version one

Circle three NOW items above. If everything is urgent, nothing is.

Scope check: Can the main task work without this feature? If yes, it can probably wait.
